

# My Tech, My Safety

## ONLINE TRAINING

**DATE:** May 26<sup>th</sup> th - 11:00am - 12:00pm

Step into the role of a **Digital Detective** and learn how to stay safe in today's fast-moving online world! My Tech, My Safety is fun, practical, and empowering training designed to help you spot scams, protect your personal information, and build confidence using technology—without needing any technical experience.

Through real-life examples, simple “clues,” and easy-to-remember rules, you'll learn how to recognize things like fake emails, scam texts, social media tricks, and even new threats like AI voice cloning. More importantly, you'll leave with a personalized **Digital Toolbox** full of strategies you can start using right away.

### Who Should Attend?

- **Individuals with developmental disabilities (IDD)** who use phones, apps, or the internet
- **Family members and supporters** who want to encourage safe and confident technology use
- **Direct Support Professionals (DSPs)** seeking practical tools they can use right away
- **County Board of Developmental Disabilities (DD) staff** interested in promoting safe, independent tech use

### Why Attend?

Because technology should **increase independence—not risk**. This session helps you:

- Feel more confident navigating online spaces
- Know what to do when something feels “off”
- Build habits that protect your identity, money, and personal story
- Support others in staying safe without limiting their independence

Walk away feeling **empowered, not overwhelmed**—ready to use your tech safely, smartly, and with confidence

**APPROVED FOR 1 CPDU HOUR THROUGH THE DODD** for the following positions: County Board Member, Service and Support Administration, and Superintendent. **PENDING APPROVAL** for Business Manager, El Developmental Specialist/Supervisor, El Service coordinator/Supervisor.

Aaron began his Information Security career as a Signal Officer in the U.S. Army over 30 years ago. Since then he has served in roles ranging from Information Security Analyst to Senior Infosec Leader in the financial services, marketing, manufacturing, pharmaceutical, public utility, and threat intelligence industries.
